Professional Summary

Full-Stack Engineer with **8 years** of experience building scalable, secure, and high-performance web and mobile applications across **FinTech**, **banking**, and **healthcare** domains. **Strong frontend expertise** in React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, and Angular, with hands-on experience designing responsive and high-performance user interfaces using Micro-Frontend architecture. Experienced in backend development and API integration using Node.js, Express.js, REST APIs, GraphQL, and MariaDB/MySQL. Strong background in application security, VAPT remediation, secure coding, automated testing, CI/CD, and production releases within agile environments.

Technical Skills

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), Angular, React Native, HTML5, CSS3, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs, GraphQL, PHP, Drupal
- **Databases:** MariaDB, MySQL
- **State Management:** Redux, Redux-Saga, Redux Thunk, Context API
- **Architecture & Performance:** Micro Frontends (MFE), Server-Side Rendering (SSR), Code Splitting, Lazy Loading, Responsive Design, Performance Optimization
- **Testing:** Jest, React Testing Library, Playwright, Jasmine
- **Security:** Application Security, VAPT/Penetration Testing Remediation, Secure Coding, SonarQube, OSS/FOSS Vulnerability Remediation
- **Build & DevOps:** Webpack, Vite, Rollup, Azure DevOps, CI/CD
- **Tools:** Git, Chrome DevTools, Redux DevTools
- **AI-Assisted Development:** Claude Code, Generative AI, Prompt Engineering, AI-Assisted Debugging, Automated Test Generation

Professional Expertise

DBS Tech India – Hyderabad, Telangana

Application Specialist | Associate | Frontend Engineer | Aug 2022 – Present

- Built **DBS Marketplace**, a multi-domain platform covering travel, car, home search, and loan estimation using **React.js, Next.js, TypeScript, and Micro-Frontend architecture**.
- Designed and developed **GraphQL-based flight and hotel booking flows**, enabling seamless search-to-payment experiences.
- Developed secure **eDocuments** functionality for DBS Credit Card customers, including secure authentication, encrypted data retrieval, and instant downloads of eStatements and eAdvices.

- Developed and integrated application features with **backend APIs and services**, supporting secure data exchange and customer-facing financial workflows.
- Analyzed and remediated **VAPT/penetration-testing findings** across frontend and backend components, addressing security vulnerabilities and supporting successful security clearance for production releases.
- Resolved **SonarQube, OSS, and FOSS vulnerabilities**, improving the overall security posture of existing applications.
- Improved application efficiency by **30%** by transforming monolithic functionality into scalable and developer-friendly **Micro-Frontends**.
- Optimized React.js and Next.js application performance using **code splitting, lazy loading, and rendering optimization**, reducing page load time by approximately **25%**.
- Developed and maintained **unit and end-to-end test suites** using Jest and Playwright, improving application reliability and regression coverage.
- Integrated **Claude Code and AI-assisted development workflows** for bug detection and automated test-case generation, contributing to a **35% reduction in production bugs**.
- Led production releases through structured **Change Request (CR) processes**, ensuring smooth and compliant deployments.
- Worked in Agile teams and contributed to **CI/CD practices** using Azure DevOps.

PrimEra Medical Technologies – Hyderabad, Telangana

Software Engineer | React / Angular Developer | Mar 2020 – Aug 2022

- Designed and developed the **Prime Grand Rounds healthcare feedback platform** using Angular, HTML5, CSS3, and Bootstrap.
- Built cross-platform **iOS and Android applications** using React Native, JSX, and Redux.
- Developed modules for rounding, issues, reports, dashboards, and administration, supporting healthcare workflow management.
- Designed and developed an **Invoice Management Tool** using React.js, Redux, and Redux-Saga.
- Integrated frontend applications with APIs to support application workflows and data-driven modules.
- Applied **Jasmine, Jest, and Enzyme** for unit and component testing, improving application reliability.
- Collaborated in Agile/Scrum teams and used **Azure DevOps** for issue tracking and development activities.

SKRAY Softech Pvt Ltd – Hyderabad, Telangana

Front-End Developer | React.js | Aug 2018 – Feb 2020

- Developed **Aajubaaaju e-Classifieds platform** using React.js with modules for user, listing, and administration.
- Integrated **Google Maps API** for location-based services.
- Developed & maintained web applications for **Imperial Sugar & Dixie Crystals** using PHP, Drupal, and HTML/CSS.
- Built **responsive** and cross-browser user interfaces for web and mobile platforms using JavaScript, HTML5, and CSS3.

Education

Bachelor of Technology (B.Tech) – Computer Science

Rajiv Gandhi University of Knowledge Technologies, Basar | 2015

Pre-University Course (XII)

Rajiv Gandhi University of Knowledge Technologies, Basar | 2011

Achievements

- **Extra Miler Award** – Recognized for exceeding role expectations by developing productivity tools that reduced team effort and streamlined operational workflows.
